CHRISTIAN CENTER FOR COMMUNICATIONS (QUITO, ECUADOR)

Northwestern College has established a degree site in Quito, Ecuador, in cooperation with HCJB World Radio. The CCC offers an Associate in Applied Science and Bible degree with a specialization in Electronic Media Communication for Spanish speaking students. This three-year program is designed to equip students for effective ministry and work in the electronic media and journalism fields.

The program is open to promising students who have completed high school, have strong academic potential, and who demonstrate a vibrant faith in Jesus Christ. The program operates on a semester schedule with the Fall term beginning in October and the last term ending in July.

All admissions processes are handled by the staff on the Quito campus.

Electronic Media Communication Associate in Applied Science and Bible

The Associate in Applied Science and Bible program is designed to prepare students for employment or further study toward a higher degree. The emphasis is on marketable skills. The degree is granted upon completion of 99 credits (depending on specialization) as specified below.
